BUILDING WORKS – UPDATE #15 2022

At last Friday's planning meeting the staff discussed the staging options for the building works. The original plan was to complete the build in three stages. However, the option of two stages was suggested by the architects as it would save money and time. Staff discussed the logistics of operating a school with a reduced space allocation and decided that it was a viable option to complete the build in two stages. Staff spent time during the day to plan and start packing up their resources.

COVID UPDATE

We will be sending home a couple of boxes of RAT tests next week for each family for the holidays!

The Department only requires students and staff showing symptoms to take RAT tests at the moment.

Please continue to social distance and use masks if you need. This is a team effort where working together will ensure the best possible protection against the disease.

Close contacts of positive cases no longer need to isolate at home **BUT must wear masks at school and RAT test 5 out of the next 7 days.**

Thanks to all students, parents and staff who continue to support the school in our endeavour to provide the safest possible environment.

Talk Time

The Talk Time topic for weeks 8 and 9 is

**The Funniest Joke
You Know**

From Skoolbag to Compass

As a school, we are phasing out the use of the Skoolbag app and moving to using the Compass app for our school communication. If you need to submit an absence note for your child, you can do so on the Compass app.

On your home screen click on the 'Shortcut' button at the bottom and choose 'Submit an absence'. Next you will choose the student who will be absent. Complete the details on the next screen and click "Add attendance note" at the bottom of the screen. You need to do this separately for each child.

The junior school will still continue to use Class Dojo for everyday communication.

Showcasing Student Work

It has been wonderful to see the Photography students developing their skills each week. Their photos are becoming more interesting as they apply lessons from local photographers.

Breanna was able to capture this butterfly perfectly perched on a bush.

Student Achievements

Xavier has achieved MORE coloured words this week!
